FURTHER INFORMATION

INTRODUCTION

Whether you're looking for something small, sporty, or spacious Nissan's Motability range offers you plenty of options.

In this brochure you'll discover the prices for a wide choice of reliable, well-equipped, surprisingly affordable vehicles – with a range of models available through Nissan's Motability Programme.

The price tables will help you decide which vehicles suit your finances. Simply select the model and transmission type that takes your interest and move along the table to the right. From here, you'll be able to see if an advance payment is required as well as how much of your DLA, PIP, AFIP, WPMS Allowance your choice of car will use each month.

Whatever your lifestyle and budget, let us help you get behind the wheel of a brand new Nissan.

For more information, please get in touch with your Nissan Motability Specialist at a local Nissan Dealership: www.nissan.co.uk/dealer-locator or email our team at Nissan: motability@nissan.co.uk

NISSAN MICRA

David Motton, Editor, FirstCar magazine, commented:

"The Nissan Micra is a worthy winner of both the 2019 Supermini of the Year and the 2019 New Car of the Year. We're delighted that Nissan has made big car safety features like autonomous emergency braking standard on the Micra. What's more, fuel efficient engines and low insurance groupings make the Micra affordable to run, even on a tight budget."

Key Features Available from Acenta Vision Pack Grade:

- Apple CarPlay and Android Auto**
- Traffic Sign Recognition
- Intelligent emergency Braking

**Apple CarPlay® is a trademark of Apple Inc. Apple CarPlay device requirements: iPhone 5 or later (lightning connector) and iOS 8.3 or later and needs to be connected via USB. Android Auto® is designed to work with Android phones running 5.0 (Lollipop) or higher and needs to be connected via USB.

NISSAN LEAF

The all electric Nissan LEAF, a pioneer in its segment, is now being offered for Motability customers.

It is equipped with the latest Intelligent Driving technologies, making it the perfect expression of smart & sustainable Nissan Intelligent Mobility.

With its range up to 239 Miles* from every charge of its 62kWh battery, the advanced Nissan LEAF represents low running costs, making sense for your pocket and the planet.

Key features available from Acenta grade:

- **e-Pedal**
- **Nissan Safety Shield including Lane Departure Warning, Intelligent Emergency Braking with Pedestrian Recognition, Intelligent Lane Intervention, Intelligent Cruise Control, Rear Cross Traffic Alert & High-Beam Assist**
- **Apple CarPlay® and Android Auto® Smartphone App Integration**

Apple Carplay compatible on iOS 11.0 or later devices.
Android Auto compatible on Android 4.3 or later devices.
Connecting a mobile phone to use Nissan Connect should only be done if the car is parked safely. Use of the system should always be in accordance with the rules of the Highway Code. Drivers should only use the systems when it is safe to do so. Users should be aware of the potential for hands-free technology to distract attention from the road, which could impact on having full control of the vehicle.

*Figures 62kWh (LEAF e+) batteries. Time dependent on charging conditions, including charger type and condition, battery temperature as well as ambient temperature at point of use.

HOW FAR CAN I GO

GO THE DISTANCE WITH NISSAN LEAF

LEAF

UP TO

168 MILES¹

FOR CITY DRIVING

NISSAN LEAF - AT HOME IN THE CITY

With 150PS² of 0% electric power, plus e-Pedal and ProPILOT technologies for safer, easier driving, Nissan LEAF is ideal for everyday commutes and trips around town.

LEAF E+

UP TO

239 MILES¹

FOR LONGER COMMUTE

NISSAN LEAF E+ - READY FOR THE OPEN ROAD

With its larger, power-enhanced battery and a high-power all-electric motor delivering up to 217PS², Nissan LEAF e+ is at home on the open road for commuting without compromise.

¹Range figures are obtained from laboratory testing in accordance with EU legislation and are intended for comparison between the different types of vehicles. The information does not refer to a particular individual vehicle and does not constitute part of the offer. Figures shown are for comparability purposes; only compare figures with vehicles tested to the same technical procedures. The electric range shown achieved using the new (WLTP) test procedure. Figures obtained after the battery was fully charged. Actual real world driving results may vary depending on factors such as the starting charge of the battery, accessories fitted after registration, weather conditions, driving styles and vehicle load.

²Figures quoted for 40kWh (LEAF) and 62kWh (LEAF e+) batteries. Indicated charging time based on starting charge of 20% and use of a CHAdeMO (50kW) rapid charger. Time may vary depending on charging conditions including charger type and condition, battery temperature and ambient temperature at point of use. The Nissan LEAF is designed to support the majority of journeys in daily life and is equipped with charging safeguards to protect the battery during repeated rapid charging sessions in a short period of time. The time taken for successive rapid charging can take longer if the battery temperature activates the battery safeguarding technology.

NISSAN LEAF

EASY CHARGING, HOWEVER SUITS YOU BEST

There are several ways to charge your Nissan LEAF. At home, Motability Operations offer a free charging solution. On the go? A wide network of public charging stations also offer Type 2, while an increasing number offer 50 kW CHAdeMO capability.

Nissan LEAF Savings and Benefits: <https://www.nissan.co.uk/vehicles/new-vehicles/leaf/savings-and-benefits.html>

HOW DO YOU CHARGE THE NISSAN LEAF?

With a large choice of charging modes from a domestic plug to public chargers, Nissan LEAF adapts to your life, your rhythm and the way you drive.

YOU CAN CHARGE AT HOME OR AT WORK

CHARGE VIA A DOMESTIC SOCKET All Nissan LEAF versions come with the cable you need to plug your car into the most convenient domestic socket for easy top up overnight or while at work.

MOTABILITY OPERATIONS OFFER A FREE CHARGING SOLUTION FOR LEAF DRIVERS When placing your application with your dealer, say yes to be contacted by BP Pulse. You'll then be contacted by BP Pulse directly who will arrange the provision of a charging solution.

For more information on the BP Pulse charging solution please click here:

<https://news.motability.co.uk/scheme-news/an-easy-charging-solution-for-electric-vehicle-customers>

CHARGE ON THE GO

PUBLIC CHARGING STATIONS

There's an ever growing network of public charging stations where you can top up your Nissan LEAF on the go. They are along major roads, in petrol stations and in several "public buildings". Just plot your itinerary on the map and choose the most convenient one for the journey.

LEAF FAVOURITE CHARGING STATIONS

Nissan dealers are happy to welcome your LEAF for a top up charge, as well as several of the Nissan partners around Europe.

As of 2019, over 160.000 charging points exist across Europe including almost

10.000 QC with CHAdeMO protocol. Today, one new Quick Charger opens every day in Europe*.

*European Alternative Fuels Observatory

EXTEND YOUR RANGE

Nissan LEAF offers you two driving modes designed to extend your range and make the most of the all-electric driving experience.

B MODE: RECOVER BRAKING ENERGY

Serious about maxing out your range? Activate B Mode. It delivers more regenerative braking, which charges the battery without compromising on driving power.

ECO MODE

Choose ECO Mode to limit engine output and save energy. It slightly increases regenerative braking to boost your range, too. To get the most mileage out of your Nissan LEAF, use B mode and ECO mode at the same time.

NISSAN e-NV200

The electric Nissan e-NV200, is the ideal family van with room for 7 passengers.

Packed with latest Nissan Intelligent Mobility technologies, it redefines the way you drive, offering you a more confident, connected and exciting ride.

Equipped with the same 40kWh battery as the award winning Nissan LEAF, the 100% electric e-NV200 is a great example of intelligent power. Smooth, practical and incredibly efficient, with a maximum range of 187 miles in city conditions*

*Figures quoted are for 40kWh battery. Time dependent on charging conditions, including rapid charger type and condition, battery temperature as well as ambient temperature at point of use.

FURTHER INFORMATION

The Nissan Motability Programme developed in association with the registered charity Motability helps you move through life with more confidence.

Terms & Conditions:

Nissan reserves the right to amend or withdraw offers at any time without prior notice, including in the case of any events or circumstances beyond Nissan's reasonable control.

- 1) Advance Payment offer valid for Motability applications from 1st April 2021 to 30th June 2021 at participating dealers and subject to vehicle availability.
- 2) Advance Payment varies according to model grade. For more information on full range Advance Payment, please refer to the Nissan Motability Price List (Prices valid from 1st April 2021 to 30th June 2021).
- 3) Motability vehicles available at a fixed weekly cost for the duration of your 3 year lease agreement. Where your weekly cost is less than your Motability total allowance, the difference will be paid directly to you by the Department for Work and Pensions (DWP) or Veterans UK depending on which allowance you receive.
- 4) Motability customers agree to pay all or part of the Motability Allowance (DLA, PIP, AFIP or WPMS) depending upon the vehicle chosen for the duration of the 3 year lease agreement.

For further information and details on the full range, please email your local Nissan Motability Accredited Dealer.

Images and descriptions shown are for guidance purposes. In some instances photos are of non-UK specification vehicles and do not represent a specific model, grade or offer. The features shown may not be available or may not be available as standard or only as option.
